# Security Policy – Gaavor (Pty) Ltd

*Last Updated: 16 July 2025*

## 1. Commitment to Security

Gaavor (Pty) Ltd is committed to safeguarding the confidentiality, integrity, and availability of data processed by its software solutions.

## 2. Data Protection Measures

- All connections use HTTPS for secure transmission
- User passwords are encrypted using MD5 with additional security layers (upgrade recommended)
- Role-based access controls restrict data access by unauthorized users
- Systems are hosted on secure, monitored infrastructure with backups

## 3. Monitoring and Audits

Regular security audits and vulnerability assessments are planned to identify and remediate risks.

## 4. Incident Response

Gaavor (Pty) Ltd maintains procedures for identifying, responding to, and notifying stakeholders of any security incidents or data breaches in compliance with POPIA.

## 5. Employee Training

Staff involved in system development and support receive regular training on data privacy and security best practices.
